### ATE Reads Together 2024 | 2

ATE's Council of Past Presidents is starting another online book group and we want you to join us. We will be reading and talking about one of the hottest topics in education: Artificial Intelligence or AI. You don't want to miss these captivating conversations. Click here to learn more about it and to register. We are beginning in October 2024.

Our book is *AI for Educators: Learning Strategies, Teacher Efficiencies, and a Vision for an Artificial Intelligence Future*. Written in 2023 by Matt Miller, this book "translates AI through a teacher lens, provides practical ideas you can use right away, unlocks powerful ways to streamlining teaching and save time, and paints a picture of the future our student will face" (from the back cover of the book). The ISBN-13 is 978-1956306477. The author also writes a blog, Ditch That Textbook: <https://ditchthattextbook.com/blog/>
