Do less, better: FEW for Joy!

DESCRIPTION

We need more joy in the profession that makes all others possible! We do not get to more joy by doing more things. In this workshop, we will implement strategies to do less, better. Feedback, engagement, and well-being (FEW) for each student and educator are at the heart of teaching and learning. That is where we find joy. We will explore strategies for addressing FEW in ways that are life-giving even when the job gets tough! You will leave with at least three strategies you can implement the next day, and hopefully a few things you can stop doing.

Workshop Facilitators/Presenters:
